Subject: Concurrence with a Partial Release of Reclamation Surety, Rocanville Corporation and Allroc Fine Aggregates LC, Black Rock Quarry, M/027/0088, Millard County, Utah

Dear Mr. Bankert:

The Utah Division of Oil, Gas and Mining concurs with the findings of the Bureau of Land Management (BLM) that the reclamation surety for the referenced mine site can be partially released. The Division inspected incomplete reclamation at the site on July 31, 2013, and observed that on-site structures had been removed, and that significant reclamation earthwork had been completed. Duane Bays (BLM-Fillmore Field Office) inspected the site after the completion of regrading on September 6, 2013, and found that reclamation earthwork is satisfactory and complete.

The Division concurs with the release of the \$9,000 surety held by the BLM in the name of Rocanville Corporation, and which has been used by Allroc Fine Aggregates LC as reclamation surety for this site. The Division is preparing to release an additional \$6,720 of Allroc Fine Aggregates LC's surety which will reduce the surety the Division holds to \$10,480, consistent with the BLM letter dated September 16, 2013, from the Fillmore Field Office. The Division will continue to hold the remaining surety until revegetation requirements have been met.

Please contact Peter Brinton at 801-538-5258 or me at 801-538-5261 if you have questions or concerns.

Sincerely,

Paul B. Baker
Minerals Program Manager
